

Netflix Content Analysis Report

Prepared by: Amal Jose | Date: 2026-06-28

1. Content Type Analysis

Movie: 6132 titles

TV Show: 2677 titles

Recommendation: Netflix should continue investing in Movies as they make up 70% of content. However, TV Shows drive longer engagement. A balanced 60/40 strategy is recommended.

2. Top Producing Countries

United States: 2819 titles

India: 972 titles

United Kingdom: 419 titles

Japan: 245 titles

South Korea: 200 titles

Recommendation: US dominates content. India is fastest growing. Netflix should increase investment in South Korea and Egypt.

3. Content Growth Trend

2021: 592 titles

2020: 953 titles

2019: 1030 titles

2018: 1147 titles

2017: 1032 titles

Recommendation: Content peaked in 2018 and declined post-2020 due to COVID-19. Netflix should ramp up production partnerships to recover growth.

4. Content Rating Breakdown

TV-MA: 3208 titles

TV-14: 2160 titles

TV-PG: 863 titles

R: 799 titles

PG-13: 490 titles

Recommendation: TV-MA dominates at 36%. Netflix should expand family-friendly content to capture household subscriptions.
